## Clear, Healthy, Radiant Skin for Life!

Dear Retailer:

Thank you for finding out more about Dermanica Skin and Hair Care Products

Please find enclosed an introductory offer on a high quality line of all natural, organic skin and hair care products by DermAnica Labs. The products are intended for people with normal, sensitive or problem skin and hair.

At DermAnica Labs, we have made it our mission to develop safe and effective products that promote smoother, healthier and younger-looking skin. Our products diminish the appearance of fine lines and wrinkles, prevent skin's premature aging, nourish and regenerate all skin types from normal or oily to dry, sensitive and easily irritated.

DermAnica line is all natural. It does not contain industrial oils, parabens, synthetic colours and fragrance or other chemicals that can be harmful to one's health and the environment. The gentle cleansers, toners, moisturizers, gels, scrubs and masks and therapeutic creams and shampoos have been formulated with the most precious and unique botanical oils, organic herbal extracts, Vitamin A-Retinol Palmitate, Vitamin C-ester, Vitamin E-Tocopherol,  $\beta$ -carotenes,  $\alpha$ -lipoic acid and DMAE.

Our therapeutic formulas contain selected botanicals that have been used traditionally to help control sensitive and allergic skin, acne, eczema, rosacea and psoriasis, hair loss and hair damage. All natural, effective products to help with these skin problems are not widely available, so bringing DermAnica to your location may attract new customers to your store.

In support of the DermAnica line, I also offer skin health consultations, providing skin care recommendations tailored to client's skin needs, and additional natural health consultation services.

As a biochemist and immunologist with over 20 years experience in research and health products development, I am very excited to be presenting my own line of specialty products. It would be a pleasure to work with you to bring these healthy solutions to your customers.

To place an order right away, please get in touch by phone or email. You can also visit our website to learn more about DermAnica, or feel free to call with any questions about the products or ordering.

I look forward to talking with you soon.

Sincerely,

*Margaret Nowotarski*
